**Hyper-hydration**

Designed to combat the signs of ageing and the effects of the menopause on skin, Biologique Recherche has launched Crème MSR-H.

Working to strengthen skin firmness, improve elasticity and relieve tightness, the cream boosts hydration with the addition of nourishing and replenishing ingredients like shea butter, beeswax and filmogenic polysaccharide.

Specific BR Oxygenating Complex is both oxygenating and regenerating, while yam extract and soya isoflavones with vitamin E provide a global anti-ageing effect that smoothes fine lines and wrinkles, and tightens the skin. Applied to the face, neck and décolletage, the cream leaves the skin looking younger and refreshed.

**Sugar, spice and all things nice**

CND Spa has added Sugar Vanilla to its treatment range providing spas with a greater choice for expanding their therapy menu for hands and feet.

Promising to envelop the senses with notes of dark vanilla, white tea and wild orchid, Sugar Vanilla Spa treatments offer sensorial botanical blends in the shape of a replenishing Soak, an exfoliating Scrub, a nourishing Masque and a hydrating Lotion.

“The new CND Spa range exudes a feeling of indulgence with a comforting candy appeal,” says Sweet Squared founder Samantha Sweet. “Clients love the botanical blend which cleanses and renews dry skin making it perfect for the harsh winter months.”

**Skincare Solutions from the sea**

Thalgo has launched three new products in its Skin Solutions collection, designed to treat specific needs including hydration, radiance, dry, sensitive and oily or combination skin.

The new Hydra Marine Gel-Balm from Source Marine is suited to skin lacking radiance and is suggested for use before a big event or during the festive and party season. Combining Lumisource, bio-active hesperidin and the marine active Sève Bleue Des Océans, it hydrates, re-mineralises and regenerates.

The Gentle Purifying Gel and Mattifying Powder Lotion from Pureté Marine have been created for oily skin that needs an extra thorough cleanse and a lotion to reduce shine. These contain a duo of algal extracts containing high doses of zinc thanks to Sève Bleue Des Océans, which cleanses, refreshes and purifies the skin.

**Heady scents for the senses**

Natural Spa Factory has added two new diffusers to its range following the popularity of the Oud Diffuser, which launched in 2016.

The Segura blends Seville orange with Moroccan spiced amber to create a warm, calm and inviting aura for the home or spa.

The Chavant delivers a fresh and joyful scent that combines fresh pomelo from the French Riviera and the citrusy floral notes of Calabrian bergamot, resulting in an uplifting aroma to ignite the senses.

The luxury diffuser sets are hand-poured by artisans and presented in glass apothecary bottles along with a 250ml refill bottle and diffuser reeds.
